

INFORMATION FOR INTERESTED DECORATORS AND SUPPLIERS

EDITION 31.03.11

QUALI MIDDLE EAST ASSOCIATION

HOW TO GET A LICENCE

INFORMATION FOR INTERESTED DECORATORS AND SUPPLIERS

QUALIDECO is an international label for special finishing that can be applied to coated aluminium. This information sheet is designed to provide an overview for companies interested on how to obtain QUALIDECO certification of the decorations, film or powders they produce.

More details about the QUALIDECO organisation can be found on its website at www.qualideco.eu.

- ❖ A company interested in obtaining a licence must submit a formal written request to the national association (QMEA) identifying the technology used in its production and the material used for decoration.
- ❖ The national association (and/or QUALIDECO) may request more details about and/or organise a visit to the plant (to be paid by the applicant) and will also indicate which laboratory is in charge of the laboratory tests and inspections.

The following conditions must be met for a licence to be granted:

1. The applicant must have a laboratory equipped with the minimum apparatus.
2. The company that performs the coating cycle must hold the QUALICOAT quality label.
3. The powder(s) used must be QUALICOAT approved for QUALIDECO use.
4. The technology (ies) must be approved by QUALIDECO.
5. An inspection of the in-house control of the applicant must be carried out by a testing body approved by QUALIDECO.
6. Laboratory tests must be carried out by a QUALIDECO laboratory on the final product.
